PREFACE

The Class of 1898 of the College of Physicians and Surgeons, Columbia University, was the first to be graduated under the four-year curriculum. When now, at the end of a quarter of a century of activity on the part of these graduates, one contemplates their achievements and the positions the majority of them hold, the wisdom of the system which was first put into effect with this Class is apparent.

In publishing this Record, we have confined our text to the professional careers of the members of the Class, including, of course, military service during the World War. Social and personal details have perforce been omitted. In mentioning hospital connections, only positions in the hospital proper have been given; Out-Patient Department affiliations have been left out. For the rest, we have included teaching positions, office in medical societies, the authorship of books and such other distinctions as we believe proper to a record like this. In some instances, the failure of members of the Class to respond to the questionnaires sent out has compelled us to be scantier in our details than we would have desired.

It is the hope of the Committee that the compilation that we have essayed will be a source of pleasure and interest to our Class. Should it play any part in the strengthening of existing ties—both professional and personal—or the renewal of forgotten ones, we shall consider our task a success.

The Committee

SUMMARY

SUMMARY

Numerical Survey

The Class of 1898, P. & S., Columbia, numbered one hundred and forty-two members at graduation. Eighty-seven who had started with the Class dropped out before the completion of the course. Thirty of the graduates have since died. Five have retired from the practice of medicine, four to go into business. Of the one hundred and seven remaining in practice, seventy-one are located in Greater New York and thirty-five in various other cities and towns in the United States.

Specialties

Of those who answered our questionnaire, thirty-nine are interested in General or Internal Medicine, thirteen in General Surgery, two in Gynecology and Obstetrics, seven in Urology, ten in Oto-Laryngology, two in Ophthalmology, four in OphthalmO-Oto-Laryngology, three in Dermatology, six in Pediatrics, one in Pathology, two in Orthopedic Surgery, two in Gastro-Enterology, one in Neurology, one in Anaesthesia, two in Roentgenology, one in Diseases of Metabolism and one in Tuberculosis.

Hospital Positions

Seventy-three members of the Class now practicing are, or have been, Consulting, Attending or Assisting-Attending Physicians or Surgeons, or their equivalent, at some recognized institution.

Teaching Positions

Forty members of the Class hold, or have held, teaching position at some recognized medical college.

Books Published

Thirteen members of the Class have written medical books, or chapters in such books, or have made translations of medical books from other languages.

Scientific Distinction

Two members of the Class won medals for research work. The subject of the one was "Fundus Changes in Arterio-Renal Diseases"; of the other, "Studies in Meningitis".

Spanish-American War

During the Spanish-American War fourteen men served in the United States Medical Service. One, Dr. George W. Lindheim, gave his life to the country's service.

World War

Forty-two members of the Class of 1898 saw military service in the World War. The Class had, in the Army, one Colonel, six Lieutenant-Colonels, fourteen Majors and fifteen Captains; in the Navy, one Commander, one Lieutenant (Senior Grade) and one Lieutenant (Junior Grade). One man served with the American Commission for Tuberculosis in France, and two were Contract Surgeons.

The Class has to its honor, through the military distinction of its members, one Distinguished Service Medal, three Croix

de Guerre, one Medaille de la Reconnaissance Francaise and seven citations. One member of the Class received the order of the "Legion of Honor."

One member of '98 gave his life in the service of his country during the World War. The circumstances of his life and death were marked by such high courage, unselfishness and devotion to duty, that we will close our summary with a brief resume of his career.

David Everett Wheeler, son of Everett Pepperell and Lydia Hodges Wheeler, was born in New York, November 23, 1872. He attended the Berkely School; St. Paul's, Concord; Williams and Columbia Colleges; and took his degree of doctor of medicine at the College of Physicians and Surgeons, New York City. In 1898 he married Mabel B. Whitney, of Boston. They had one son.

Dr. Wheeler's vacations were spent hunting big game in the Northwest, which kept him so fit, that when he offered his services to the British as a surgeon in October, 1914, he was able to stand the strain of the campaigns although beyond the draft age. He served first with the British Red Cross near Compiègne. In February, 1915, he enlisted in the French Foreign Legion, and served until wounded in the battle of Champagne, September 28, 1915. The officers of his company were killed, and only twenty-three of the men survived. Although crippled by a shattered knee, Dr. Wheeler crawled back, six kilometres under fire, dressing the wounds of many as he passed. For this he was given the Croix de Guerre.

Discharged as unfit for active service, Dr. Wheeler returned to the States for rest. In the winter of 1916-17, he went to England where he served in the Reading War Hospital.

When the United States entered the war, he obtained a commission as First Lieutenant in the Medical Reserve Corps of the A. E. F. In October, 1917, he was attached at his request to the First Division, which was then going to the front at St. Mihiel. He was constantly at the front, at St. Mihiel, Montdidier and Cantigny. He was offered positions back of the line, but insisted on staying where he could do most good in the front line dressing stations. He returned from a Paris furlough in July, 1918, just in time to go into action with his battalion in the Soissons drive.

"He went right to the attack, scarcely stopping for his supper," wrote his Chaplain. "His work from then on was one of absolute devotion to the wounded and dying. Wherever he heard of a wounded man, there he went to give his services."

He was killed by a high explosive shell in a first line dressing station on July 19, 1918.

CLASS RECORDS

CLASS RECORDS

John Aquaro,

202 Spring Street, New York.

General practitioner.

At present Visiting Physician to the Department of Correction of the City of New York.

Interested in travel.

Served overseas in the World War as Captain, M.C.

Thomas Shaw Arbuthnot,

6425 Fifth Avenue, Pittsburgh, Pa.

Retired from private practice.

Internship in Mercy Hospital, Pittsburgh. Postgraduate work in obstetrics at Rotunda Hospital, Dublin, Ireland, in 1899, and in Edinburgh and London, 1899 to 1900, working for the two degrees—L.R.C.P. (London) and M.R.C.S. (England).

During course of first ten years of practice, was on the medical staff of Mercy Hospital, Western Pennsylvania Hospital and Pittsburgh Tuberculosis Hospital.

At present lecturer on History of Medicine at University of Pittsburgh.

Held the Deanship of the Medical School of the University of Pittsburgh for ten years. Resigned in 1919. Received the degree of LL.D. from the University of Pittsburgh in that year. Is on the Boards of several charitable institutions in Pittsburgh and is a member of the Carnegie Hero Commission.

Interested in hunting, travelling, golf, tennis and music.

Served overseas in the World War as Lieutenant-Colonel with Base Hospital No. 27 (University of Pittsburgh Hospital) at Angers, France, from August 1917 to January 1919.

Samuel Barshell,

185 Lenox Avenue, New York.

Internship in Harlem Hospital.

Edward John Bero,

230 West 112th Street, New York.

General practitioner.

James Francis Briody,

385 Main Street, Paterson, N. J.

General practitioner.

During course of first ten years of practice, Assisting Visiting Physician Medical Division, St. Joseph's Hospital, Paterson, N. J.

At present Visiting Physician to St. Joseph's Hospital, Paterson, N. J.

City Physician and Member of Board of Health of Paterson from 1907 to 1915.

Member of Local Board for Division No. 4, Paterson, N. J., during war.

Charles Frederick Buckley,

Klein Building, Edgewater, N. J.

Industrial Surgeon.

Vice-President, American Association for Thoracic Surgery.
Formerly Secretary of the American Association for Thoracic Surgery; Acting Secretary, New York Surgical Society; Chairman, New York Society for Thoracic Surgery.

Author of numerous articles on surgery of the thorax.

Interested in forestry.

Moritz Gross,

133 West 77th Street, New York.

General practitioner.

Internship in Lebanon Hospital. Postgraduate gynecological work in Berlin and Vienna.

Interested in fishing and hunting.

Henry Clinton Hatton,

10436-128th Street, Morris Park, L. I.

Pediatrician.

Internship in Lincoln Hospital, New York.

During course of first ten years of practice, Assisting Physician at Yankee Hospital, Yankee, New Mexico.

At present, Visiting Physician, St. Mary's Hospital, Jamaica, L. I.

Interested in fishing and hunting.

Reuben Johnson Held,

3529 Pacific Avenue, Atlantic City, N. J.

Oto-Laryngologist.

Internship in French and Lincoln Hospitals, New York.

During course of first ten years of practice, Assistant Sur-

geon, Ear Department, Manhattan Eye and Ear Hospital;
Attending Otologist, N. Y. Red Cross Hospital.

At present, Oto-Laryngologist, Atlantic City Hospital.

Instructor in Laryngology and Rhinology, N. Y. Post-Graduate Medical School, 1902-1905; Instructor in Operative Surgery on the Ear on the Cadaver, N. Y. Post-Graduate Medical School, 1903-1907; Adjunct-Professor in Diseases of the Ear, N. Y. Post-Graduate Medical School and Hospital, 1906-1907.

Author of numerous articles pertaining to oto-laryngology.

Formerly Associate Editor of the *Medical Review of Reviews*. Department of Otology.

Interested in fishing, shooting, golf.

Served in Spanish-American War as First Lieutenant (Asst. Surgeon).

Served in World War as Major, M.C.

Harold E. Hewlett,

Babylon, N. Y.

General practitioner.

Internship in City Hospital, New York.

At present Visiting Physician, Southside Hospital.

Carl Richard Keppler,

138 Clinton Avenue, Newark, N. J.

Orthopedic Surgeon.

Internship in St. Mark's Hospital. Attended various orthopedic clinics in Berlin, Dresden, Halle and Leipzig, Germany.

At present connected with Newark Board of Health, Newark Private Hospital and Newark City Dispensary.

Interested in trout fishing, hunting, casting and trap shooting.

Served during war on Advisory Board, U. S. Medical Service, Union Co., N. J.

Roy S. Hinsdale,

567 West 113th Street, New York.

Oto-laryngologist.

Ernest Valentine Hubbard,

50 East 63rd Street, New York.

Oto-rhino-laryngologist.

Internship in City Hospital and Roosevelt Hospital. Post-graduate work at University of Vienna.

During course of first ten years of practice, Assistant Surgeon, Manhattan Eye, Ear and Throat Hospital; Asst. Surgeon, Twenty-Second Regiment, N.G.N.Y.

At present, Asst. Surgeon, Throat Department, Manhattan Eye, Ear and Throat Hospital; Visiting Surgeon, Tonsil Hospital; Surgeon, N. Y. Police Department.

Formerly Treasurer, then Secretary, then Vice-President and then President of the West End Medical Society; Secretary and then Chairman, Section on Laryngology, N. Y. Academy of Medicine.

Interested in yachting, tramping and fishing.

Charles Frederick Hunt,

537 West 149th Street, New York.

General practitioner.

Connected with State Department of Health, at Syracuse, 1900-1903.

Interested in golf, hunting and fishing.
Served in World War as Captain, M.C.

Charles W. Ivie,
449 Ninth Street, Brooklyn, N. Y.
General practitioner.

Elias S. Jackson,
9 West 123rd Street, New York.
Diagnostician.
Interested in walking, mechanical work and literature.

Edward West Johnson,
Madison, Mo.

Henry T. Kelly,
15 No. Broadway, White Plains, N. Y.
General practitioner.
Internship in City Hospital, N. Y. Postgraduate work in
London, Edinburgh, Berlin and Vienna.
At present Chief-of-Staff, White Plains Hospital.
Editor of "Medical Bulletin" of Westchester County Medical
Society.
Interested in baseball, tennis and camping.
Examining Physician, Local Board for Selective Service,
during World War.

James H. Kenyon,
57 West 58th Street, New York.
General and Neurological Surgeon.
Internship in New York Hospital.

At present Visiting Surgeon, Fordham Hospital and Booth Memorial Hospital; Associate Surgeon, Neurological Institute.

Served in World War as Captain, 106th Field Artillery.

Eugene George Kessler,

315 East 87th Street, New York.

General practitioner.

Internship in French Hospital.

During course of first ten years of practice, Instructor in Pediatrics at New York Polyclinic.

Author of Chapter on Biochemistry of the Textbook of Chiropody.

Interested in philosophy.

Walter Lee Kline,

115 Prospect Place, Friendship Heights, Md.

Ophthalmo-Oto-Laryngologist.

During course of first ten years of practice, County Coroner, Montgomery County, Ohio (for two years). Subsequently, Surgeon for the Southern Pacific Railroad Construction Company, at Guadalajara, Mex., for three years (1907-1910); then in U. S. Army for border service.
